RE: Sustainable Forestry Initiative (SFI) Certification

Regional Affiliate Certificate Group (RACG) is a program developed and offered by participating Regional Affiliates. This means that RACG has an intimate knowledge of the print industry, what printers face each day, and what printers need to make their life easier.

RACG is committed to follow the SFI 2014-2019 Chain of Custody Standards. Being SFI certified means that RACG is dedicated to the mission of promoting sustainable forestry practices. This commitment also includes providing group members and employees with training and education regarding the practice of sustainable forestry.

A handwritten signature in black ink, appearing to read 'Tim Freeman', with a long, sweeping horizontal line above the name.

Tim Freeman

RACG President
