### **Annual Forest Products Turnover & Supporting Documentation**

*per FSC-POL-20-005 V3.1*

The exact amount of your Gross Sales and Forest Products Turnover is to be provided on an annual basis. Forest Products Turnover means the Revenue of all certified and uncertified forest products and products containing wood or fiber components. (i.e., all wood products, pulp and paper products, and non-timber forest products according to FSC-STD-40-004a). It does not refer to 100% non-forest products companies might produce. For clarification, Forest Products Turnover does not refer to related services.

Oral or written self-declarations of Forest Products Turnover can no longer be accepted. Members must provide a copy of supporting documentation which matches the dollar amounts entered in the Consent Form. Supporting documentation may include:

- Tax records and filings
- Accounting records
- Financial statements
- A declaration from an accounting firm
- Management accounts showing financial general ledger coding

Our recommendation is to provide a profit and loss statement, or other applicable financial statement, with every line blacked out except the dollar figure(s) directly applicable to the required information above.
